Claims 6 – 8 have been cancelled.

4. The following is an examiner's statement of reasons for allowance:

Art Unit: 1772

The closest prior art of record fails to teach or suggest the recited multilayered article. Independent claim 1 identifies the uniquely distinct features of a multilayered article having outer surfaces comprising aliphatic polyamides containing one or more oxidation stabilizers and inner surfaces comprising semi-aromatic polyamides free of oxidation stabilizers. The closest prior art of record, Weber et al. (EP 0 530 538) and Stevens et al. (WO 98/10927), disclose multilayered products having inner and outer surfaces of polyamides, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
